

Odoo ERP

In just a few minutes, you will have your own Odoo Enterprise Resource Planning platform that is totally under your control.

Control your Odoo

Odoo is currently recognized as an open-source alternative to platforms such as SAP.

With **Odoo** Simple Hosting, we want to facilitate access to this solution by providing you with a Simple Hosting instance that comes with Odoo and OCA addons already installed and ready to go. You are then free to manage it according to your needs.

Weopensoft Cloud Hosting plan

- ❖ You are administrator of the platform and can decide all about Apps.
- ❖ Our cloud is located in Europe.
- ❖ Odoo Apps. Take advantage of the many apps that OCA develops you can add to extend the possibilities given, such as install survey addon or integrated Stock application.
- ❖ Linked to our domain name. Having your ERP platform at weopensoft, along with our domain names, the platform will be accessible in no time at all.
- ❖ Security with SSL certificate. Your Odoo is enabled with TLS/SSL certificate delivered by Lets Encrypt.

Terms of use

By using this product, you agree to the weopensoft.com GCP Marketplace Terms of Service and the following software license terms of use: [Odoo](#).
